Compaq iPAQ Connection Point CP-2E 4-Port Cable/DSL Broadband Router

Fast, Secure and Simplified Networking

Actual size
8.82" x 5.39" x 1.22" (1.1 lbs.)

Want every PC in your household to take advantage of today's broadband Internet technologies? And have the speed of a business-grade network while you're at it? Then grab a Compaq *iPAQ*™ Connection Point CP-2E and get connected. The *iPAQ* CP-2E comes equipped with a cable/DSL router and a four-port Fast Ethernet Switch that connects up to four PCs in your home or small office. Which means everyone can simultaneously share a single Internet account,[1] files, software, printers, digital music and more. You'll also have the peace of mind that comes with a built-in firewall, VPN pass-through, a virtual server and Internet port filtering – which protect you from unforeseen threats, while offering unsurpassed access to the world outside. And whether you're a networking expert or just getting started, the *iPAQ* CP-2E features a Quick Setup Wizard that makes setup and everyday operation simple.

- *Install and operate with ease – Anyone can set up and configure the* iPAQ *Connection Point CP-2E.*
- *Share a single cable or DSL Internet connection[1] – Network Address Translation (NAT) allows you to share one, broadband IP address among multiple PCs.*
- *Dynamic Host Control Protocol serves up to 253 Internet devices for hassle-free IP address acquisition and management.*
- *Cable/DSL Ready supports dynamic IP, static IP and PPPoE Internet access at speeds 50 times faster than a 56K modem.*
- *Manage and configure the* iPAQ *Connection Point CP-2E through a Web browser for easy access and navigation.*
- *Experience the power of Ethernet networking – Built-in 4-Port 10/100 Mbps Fast Ethernet Auto-Sensing Switch allows up to 4 computers on the network without an additional hub and automatically configures optimum connection speeds up to 100 Mbps.*
- *Enhanced security and advanced management – Includes NAT firewall security, Internet protocol and port filtering, MAC address spoofing, virtual private network pass-through, Web DMZ and Virtual Server.*

Compaq P/N: 283011-001

UPC: 613326424254

Dimensions & Weights

Unit: 8.82" x 5.39" x 1.22" (1.1 lbs.)

Unit Package: 13.56" x 7.19" x 2.56" (2.87 lbs.)

Units per box: 1

Units per masterpack: 4

Masterpack dimensions: 7.5" x 13.75" x 11.375"

Masterpack weight: 11.7 lbs.

Pallet size: 40" x 48" x 48"

Sellings Points

- Save money by sharing a single cable or DSL Internet connection[1]
- Variety of advanced security features including a built-in NAT firewall
- Secure VPN pass-through support
- Built-in 4-port switch supports 4 PCs with business-grade speed
- Easy installation and operation via a Web browser
- Support dynamic IP, Static IP and PPPoE

Standard Features

Share a Single High-Speed Internet Connection

- Cable/DSL Ready supports dynamic IP, static IP and PPPoE connections via an external DSL or cable modem, providing high-speed Internet access (up to 50 times faster than a 56K modem)
- NAT (Network Address Translation) allows a single public IP address to be shared across many devices[1]
- DHCP server automatically provides up to 253 IP addresses on the local area network

Ethernet Networking

- Built-in 4-port Fast Ethernet Switch connects up to four PCs with Ethernet cables for high-speed data transmission (up to 100 Mbps), enhancing gaming and audio/video streaming
- Auto-sensing 10/100 ports automatically configure to 10 Mbps or 100 Mbps Ethernet transmissions
- Auto-sensing MDI/MDI-X cabling automatically configures for use with cross-over Ethernet cables
- 10-foot Ethernet cable allows users to instantly connect

Security and Advanced Management

- NAT firewall hides local PCs from external hackers by translating IP addresses from public to private local addresses
- Secure VPN pass-through allows users to tunnel into a corporate network from behind the Connection Point CP-2E firewall
- Internet protocol and port filtering enable you to block or allow data based on individual protocols or ports
- Web DMZ allows an IP address to be set up outside the firewall for Web page serving or other services
- Virtual server enables a virtual port for such services as FTP, while the host device remains behind the firewall
- MAC address spoofing presents a defined MAC address to ISP
- Internal Web-based management pages allow you to manage and configure the Connection Point CP-2E through a Web browser for easy access and navigation
- SNMP sends an e-mail to you alerting you of certain log events

Easy to Install and Use

- The built-in Quick Setup Wizard lets you configure the Connection Point in minutes
- HTML-based management pages let you easily manage your Connection Point through a Web browser for easy access and navigation
- Comes complete with an easy-to-understand printed User Guide

Target Market

- Broadband, multiple-PC households
- Home/small office environments

System Requirements

- Microsoft® Windows® 98, NT® 4.0, 2000, ME, XP or higher
- CD-ROM drive
- External cable or DSL modem with Ethernet connection
- Network adapter for each connected PC
- Internet Explorer 4.0 or higher, Netscape Navigator 6.0 or higher, MSN® Explorer
- Current Internet access account for Internet sharing

Power

- 12 VDC 1.2A wall adapter

Warranty

- 1-year U.S. Limited Warranty[2]

Compaq Service and Support

- Comprehensive product protection plan – includes a one-year hardware warranty.[2]
- 24x7 e Services – for the fastest access to accurate solutions through www.compaq.com/consumersupport.
- Technical support 24 hours a day, 7 days a week at 1-888-302-7358.
- WLAN Technical Support – software technical support on the *iPAQ* Connection Point for 90 days.

Ports

- WAN Internet Interface: Qty. 1 RJ45 (10 Base-T Ethernet)
- LAN Interface: Qty. 45 RJUS 10/100 Mbps (10/100 Base-T Ethernet), MDI/MDI-X
